Item/project	Cost (Approx)	Objective	
Evolve support	£3,515	To provide sport activities during lunch and after school.	
TA after school club	£264	<i>Additional staff for after school club.</i>	

In the 2017/18 academic year, we used £3,515 of our sports premium money to invest in Evolve Sports. Evolve sports are new to the school this academic year but have provide a service in which they have reached a wide range of children in the school. We have developed a bespoke timetable, which has been carefully designed, so that we have the maximum impact on our children:

- 100% of our Early years and year 1 children have received gross / fine motor circuits throughout the year which have been specifically designed by the schools OT alongside evolve sport to meet the needs of our children. This has shown a significant progression in the children in this area.
- We have introduced a new afterschool club for our Year 7, 6 and 5 classes. This is a time where the children get to experience playing a wide range of different sports in a relaxed, fun and safe environment after school hours.
- We have introduced lunchtime clubs for KS2 and 3. Where the children get the chance to participate in a wide range of sport and physical activities.
- During lesson time we have used evolve sport to carry out bespoke OT programmes for individual children. This allows us to deliver the OT sessions to more children and deliver the sessions more often.

- During lesson time, he will also work with some of our more challenging students doing intensive interaction session to help work on the children's communication skills.

<b>Total PPG expenditure</b>	£3779
<b>Carry forward</b>	£9,597
